Sir:

REISSUE DECLARATION UNDER 37 C.F.R. §§ 1.172 AND 1.175

I, Anne M. Foulkes, am a duly authorized representative of the assignee of the entire interest in this patent and do hereby state and declare as follows:

1. I am the Assistant Secretary of PRC-DeSoto International, Inc., the Assignee of the entire right, title, and interest in U.S. Patent No. 5,912,319 by virtue of an assignment from co-inventors Jonathan Doherty Zook, Suzanna Gibson, David Weldon Jordan, and Chandra B. Rao to Courtaulds Aerospace, Inc., recorded at Reel 9192, Frame 0196, and by virtue of a

subsequent assignment for a change of name from Courtaulds Aerospace, Inc., to PRC-DeSoto International, Inc., filed January 7, 2004, with the U.S. Patent and Trademark Office.

Accordingly, as Assistant Secretary of PRC-DeSoto International, Inc., I am empowered to sign this paper on behalf of the Assignee, PRC-DeSoto International, Inc.

2. I believe that Jonathan Doherty Zook, Suzanna Gibson, David Weldon Jordan, and Chandra B. Rao, are U.S. citizens, are the original, first and joint inventors of the subject matter which is described and claimed in U.S. Patent No. 5,912,319, issued on June 15, 1999, and for which a reissue patent is sought on the invention entitled "Compositions and Method for Producing Fuel Resistant Liquid Polythioether Polymers with Good Low Temperature Flexibility."

3. I hereby state that I have reviewed and understand the contents of the above-identified specification, including the original patent claims, and the claims in the Amendment filed herewith. I also believe that the claims in the Amendment do not enlarge the scope of the claims of the original patent.

4. I acknowledge the duty to disclose information that is material to the examination of this reissue application in accordance with Title 37, Code of Federal Regulations, Section 1.56(a).

5. I believe U.S. Patent No. 5,912,319 to be, through error and without deceptive intent, at least partly inoperative because the inventors claimed less than they had a right to claim in the patent.

6. An error, which is a statutory basis for reissue, is that the inventors unnecessarily limited the scope of patent protection to which they were entitled. Claims 1-23 do not cover the full breadth of the disclosed invention, and the inventors erred by not pursuing during the

original prosecution additional claims, such as those filed in the Amendment included with this application. I believe that this error occurred because the prosecuting attorney at the time did not fully appreciate the true nature and scope of the invention disclosed in the original application and thus did not prepare claims that provided sufficient patent protection to which the invention properly is entitled.

7. The above-described error and all other errors corrected in this reissue application arose without any deceptive intent.

8. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
